Received
OCT 20 1980
Governor's Office.

The Honorable Harry D. Early
Governor, Pueblo of Laguna
P. O. Box 194
Laguna, New Mexico 87026

Dear Governor Early:

This will acknowledge your letter of October 2, 1980, requesting mineralization information on the Laguna Jackpile Lease. It is indicated from you that this data will be utilized in your evaluation of our proposed mining reclamation program. It is further understood that you are not requesting mineral information from those areas we intend to mine. On this basis, we have no objection to giving you this information, but it is a large order and it will take some time to fully meet your request.

I have asked Earl Arlin to get in touch with your representative, Robert E. Grote, and possibly they could expedite the matter between the two of them.

Sincerely,

R. D. Lynn
Manager
